

Exercice 1 : conversion de surfaces et tableau de conversion.

Compléter les aires et conversions suivantes :

a) $2,6 \text{ m}^2 = \dots\dots\dots \text{ dm}^2 = \dots\dots\dots \text{ cm}^2$

b) $3 \text{ cm}^2 = \dots \text{ dm}^2 = \dots \text{ m}^2$

c) $\dots\dots \text{ km}^2 = 57,4 \text{ hm}^2 = \dots\dots \text{ m}^2$
