## Answers

1. **B** – One frame is full (10) and the second has 7, so ten and seven is 17. Counting only the second frame gives 7.
2. **D** – Count every circle once: there are 11. Stopping early gives 10.
3. **C** – Count forward one step from 14 to say 15. 13 is one less.
4. **B** – Count back one step from 20 to say 19. 21 is one more.
5. **D** – The ticks go 7, 8, box, 10. The box is 9.
6. **B** – Thirteen is ten and three more. Thirty is a different, bigger number.
7. **A** – After 18 we say 19.
8. **C** – There are 2 empty boxes, so 2 more counters make 10. 8 is the number already in the frame.
9. **A** – Ten and six more is 16. The digits in 61 are in the wrong places.
10. **A** – One more than 12 is 13.

## Remember

### Remember

- Touch each object once and say one number for each touch.
- The last number you say tells how many objects there are.
- A full ten frame holds 10 counters; a second frame shows 11 to 20.
- One more is the next number; one less is the number before.
- A numeral such as 14 is the written symbol for fourteen.
