Which time is half past 9?

- A. 9:15
- B. 9:45
- C. 9:30
- D. 8:30

Question 9

Which is the latest time?

- A. 2:55
- B. 2:40
- C. 2:15
- D. 2:05

Question 10

A clock.

What time does the clock show?

- A. 10:55
- B. 11:50
- C. 11:10
- D. 12:11

Answers

1. **B** – The short hand points to 6 and the long hand points to 12, so it is 6:00. Mixing up the hands gives 12:30.
2. **B** – The hour is 8. The minute hand is on the 5, and counting by fives gives 25. Reading the 5 as 5 minutes gives 8:05.
3. **D** – The hour hand has not reached the 2 yet, so the hour is 1. The minute hand is on the 9, which is 45 minutes.
4. **A** – Count by fives to 4: 5, 10, 15, 20. Each number is worth 5 minutes.
5. **D** – Dinner is in the evening, which is p.m. 6:15 a.m. is early morning, and 12:15 a.m. is just after midnight.
6. **A** – 35 minutes is 7 fives, so the minute hand points to the 7. The 10 is the hour, not the minutes.
7. **C** – A quarter past means 15 minutes after the hour. A quarter to 5 would be 4:45.
8. **C** – Half past means 30 minutes after the hour, so half past 9 is 9:30.
9. **A** – All times are in the 2 o'clock hour, so the one with the most minutes is latest. 55 is the largest.
10. **B** – The hour hand is almost at the 12 but has not reached it, so the hour is 11. The minute hand is on the 10, which is 50 minutes.

Remember

Remember

- The short hand shows the hour and the long hand shows the minutes.
- Each number on the clock face is worth 5 minutes, so count by fives.
- Quarter past is 15 minutes, half past is 30 minutes, and quarter to is 45 minutes.
- Minutes are always written with two digits, such as 7:05.
- A.m. means midnight to noon, and p.m. means noon to midnight.

How to use this time quiz

Answer each question, read the explanation that appears, and keep track of your score. A score of 8 out of 10 or more means you are ready for the test.
